

# Nuclear Power Plants in Japan

## Type of Reactor

## Status

(as of Oct. 2017)

### Kashiwazaki-Kariwa

Tokyo Electric Power Company

### Tsuruga

Japan Atomic Power Company

### Fugen

Prototype Advanced Thermal Reactor  
Japan Atomic Power Company

### Monju

Prototype Fast Breeder Reactor  
Japan Atomic Energy Agency

### Ohi

Kansai Electric Power Company

### Mihama

Kansai Electric Power Company

### Takahama

Kansai Electric Power Company

### Kaminoseki

Chugoku Electric Power Company

### Shimane

Chugoku Electric Power Company

### Genkai

Kyushu Electric Power Company

### Tomari

Hokkaido Electric Power Company

### Oma

Electric Power Development Company

### Shika

Hokuriku Electric Power Company

### Higashidori

Tohoku Electric  
Tokyo Electric

### Onagawa

Tohoku Electric Power Company

### Fukushima I

Tokyo Electric Power Company

### Fukushima II

Tokyo Electric Power Company

### Tokai

Japan Atomic Power Company

### Tokai II

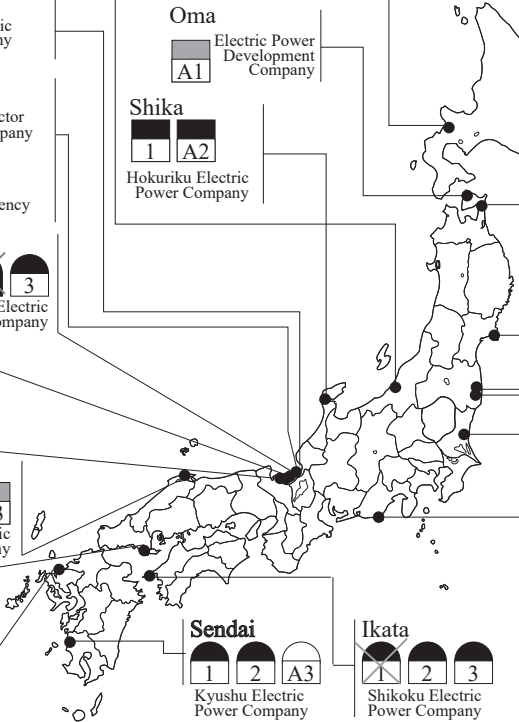

Japan Atomic Power Company

### Hamaoka

Chubu Electric Power Company

\*Of 42 operable reactors, only 5 are actually in operation as of Oct. 2017
